Colorado's Safety Net:

Building and Monitoring Caring Communities

- What do the data tell us about Colorado's safety net providers?
- What are the characteristics of safety net users?
- What can the safety net teach the broader health care community about collaborative models of care?
- What unique models of care exist in rural and urban Colorado communities?
- What does Colorado's health care safety net need to stay viable in the future?

Karen Davis, president of the Commonwealth Fund, will be the keynote speaker, providing a national overview of high-performing communities and the role the safety net plays in these communities. Mark your calendar now for this special event.
