

Organizational Mission

To be a powerful vehicle for collective action enhancing county government; to assist members (commissioners) in delivering cost effective and efficient services to their constituents; to foster and promote partnerships and collaborative efforts; and to enhance understanding of public policy issues.

Map Purpose

Colorado Counties, Inc. (CCI) is a nonpartisan, nonprofit member-based organization created to help county commissioners better serve people in their region. CCI organizes Colorado counties into five districts so county commissioners in the same geographic region can meet quarterly to discuss issues of common concern pertinent to their diverse region of Colorado.
