# Goals

Clarity in health care and public health's collective voice Improved partnership and collaboration among sectors Increased alignment in our public health, assessment, and populationlevel implementation plans, resulting in increased efficiency and consistency in engaging with our communities

Reduced burden on community members and MDPH stakeholders by providing a single venue for public engagement

Pooled resources and improved funding reach Better awareness and capacity to address health equity needs leading to decreased health disparities

Increased trust, respect, and commitment among partners in all roles

Improved and accessible data at a regional level

Improved health outcomes
