

Legislative Conference

December 5-7, 2012

Cheyenne Mountain Resort • Colorado Springs

**Get Connected.
Get Smart.
Get Ready.**

Informing Policy. Advancing Health.

A Picture of Health

Why Health Policy Matters

Michele Lueck

December 5, 2012

Legislative Conference

Cheyenne Mountain Resort • Colorado Springs

colorado health
INSTITUTE

The Next Three Days: Goals

- Heighten awareness of **your important role** in health policy.
- **Broaden** and deepen your **understanding** of specific **health-related issues**.
- Introduce a “**systems thinking**” approach to health policy solutions.

Why Health Policy Matters

Urgency of Health Policy

- The **problems**
- **Dynamics**: State and Federal Initiatives

A New Era

- The Affordable Care Act (**ACA**)
- Colorado's **decade of investment**

Today's Hot Issues

- **What** they are
- **Why** they matter

Three Takeaways

- Your leadership **matters**.
- Health policy decisions are increasingly **data-informed** and **data-driven**.
- The time to act is now because Colorado's "**demographic clock**" is ticking.

Urgency of
Health Policy

Problem One: Escalating Costs

Sources: <ftp://ftp.bls.gov/pub/suppl/empstat/cscceb2.txt>, <ftp://ftp.bls.gov/pub/special.requests/cpi/cpiiai.txt>

Problem Two: The Quality Chasm

1999

- 44,000 to 98,000 die in hospitals each year from preventable errors
- Sixth leading cause of death in U.S.

2012

- 30 percent of health spending unnecessary
- 75,000 deaths a year could be averted with better quality care

Problem Three: Colorado's Demographic Clock

The Aging of Colorado

By the Numbers
2000: 418,959
2030: 1,331,008
Increase: 218
percent

SOURCE: Colorado State Demography Office, population estimates, 2000-2030

Problem Three-A: From Acute to Chronic

Leading Causes of Death in the United States, 1990 and 2010

Number of deaths per 100,000

1900		2010	
1. Influenza and pneumonia	202.2	1. Heart disease	192.9
2. Tuberculosis	194.4	2. Cancer	185.9
3. Gastrointestinal infections	142.7	3. Chronic airways disease	44.6
4. Heart disease	137.4	4. Cerebrovascular disease	41.8
5. Cerebrovascular disease	106.9	5. All accidents	38.2

Approaches and Solutions

A Brief Civics Lesson

A Primer: Federal and State Initiatives

Federal-State Relationship: Big Ideas at Play

The Triple Aim

- Coordinated Care
- Payment Reform

Integrated Approaches

- Cross-disciplinary teams
- Multi-payer initiatives
- Public-private partnerships

Community Emphasis

- Local control
- Local solutions

Feds and States: The What and the How

Innovation Challenge

- Denver Health
- Upper San Juan Health Service District

Partnership for Patients

- More than 175 Colorado hospitals, clinicians, patient advocates

Colorado Health Benefit Exchange

- One of 16 states, plus DC, that have started

Feds and States: The What and the How (Part 2)

Accountable Care Organization (ACO) Shared Savings

- 27 selected, reviewing 150 more applications

Pioneer ACO

- Physician Health Partners in Colorado, 31 others

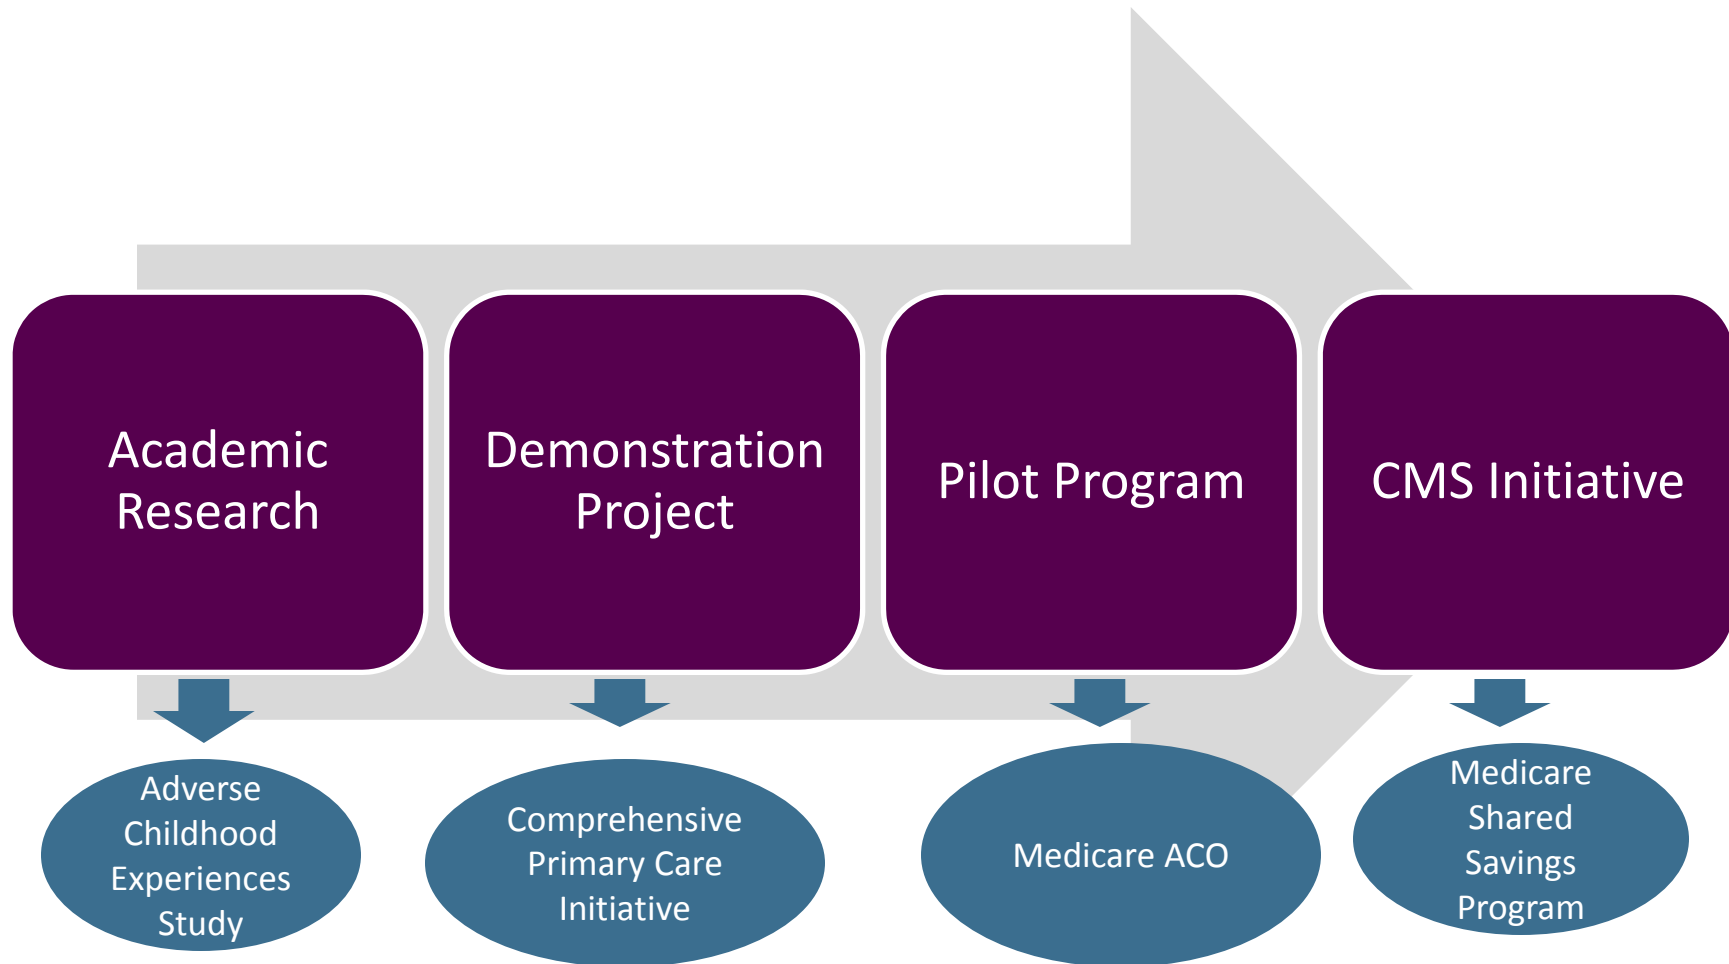

Dual Eligible State Demonstrations

- Colorado one of 15 states selected to submit proposals

State Innovation Models (SIM) Grant

- Colorado application pending

Innovation Leads to Scale

A New Era
in Health Policy

Affordable Care Act: As Social Policy

- **Medicaid will insure** the poorest among us
- Most Americans **must have health insurance**
- **Experiment** to control costs at best quality
 - Accountability at level of provider
 - Payment reform
 - Keeping us well

Colorado: Ahead of the Game

208 Blue Ribbon Commission:

- Every legal resident to have **Minimum Benefit Package**
- **Cover uninsured** to reduce overall premiums
- Increase use of **prevention** and chronic care management
- Provide **medical home** for all Coloradans
- Consumer choice through a “**connector**”

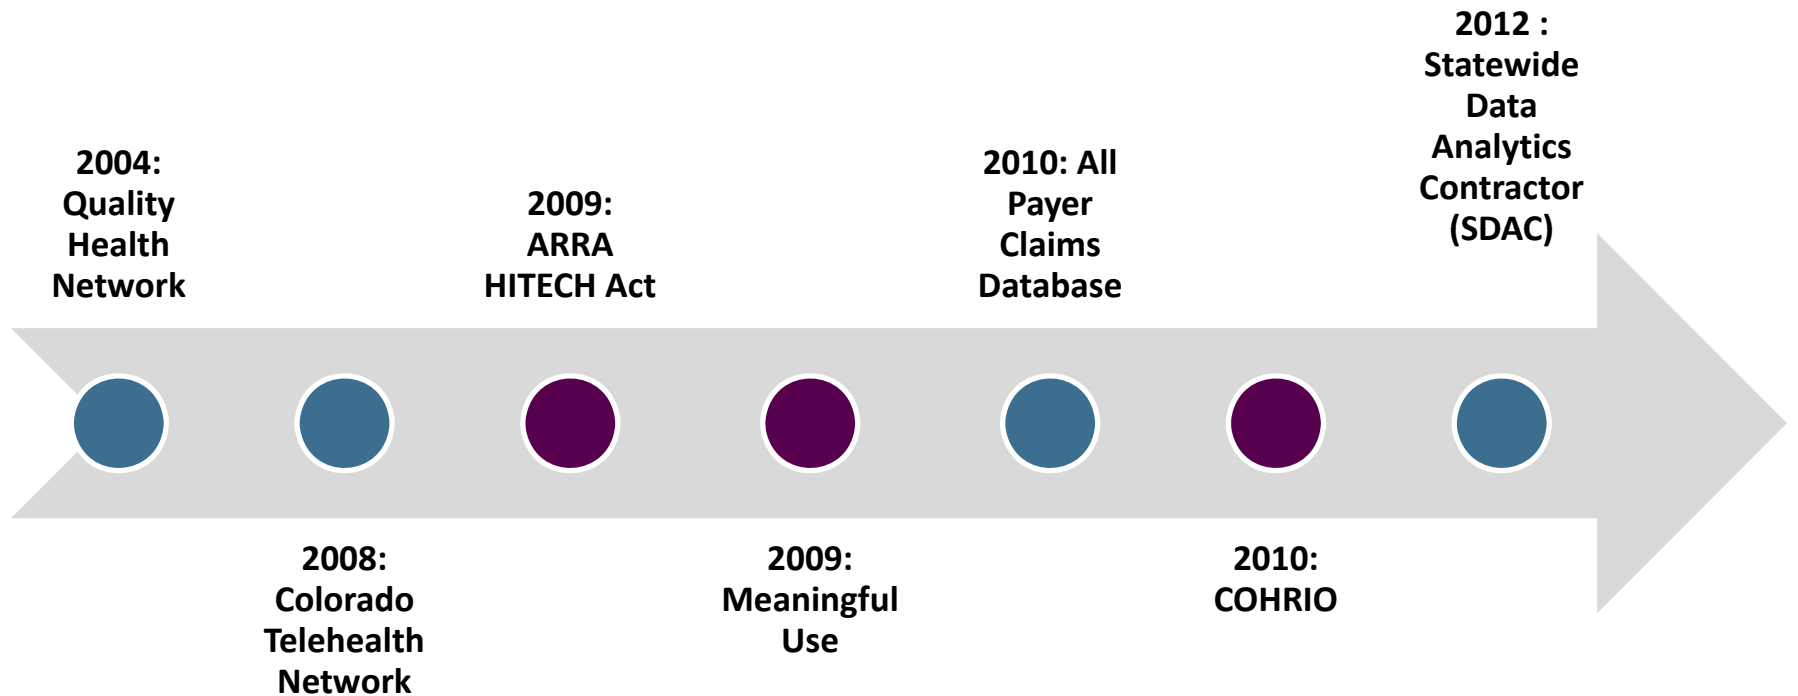

Colorado – A Decade of Major Investment

- IT and infrastructure
- Data and analytics
- Collaboration
- Bottom Line: Millions of Dollars

The Past Decade of Big Investments

Today's Hot Issues

Today, Tomorrow and Friday

Today: Health Policy “Boot Camp”

- Structures of health policy
- “Need to know” information about how Colorado health care works

Tomorrow: Hot Issues in Health Care

- Anticipated **2013** topics
- Decisions in mind

Friday: Conversational Capacity

- Getting to agreement

What's In Store

- What's the **issue**?
- Where's the **debate**?
- What **policy levers** are available?
- Where is there **agreement**?

Insurance markets	Colorado's Role	Populations	Reform Efforts
<ul style="list-style-type: none">• Public• Private• Exchanges	<ul style="list-style-type: none">• Departmental• Safety net providers	<ul style="list-style-type: none">• Seniors• Medicaid Expansions	<ul style="list-style-type: none">• Payment• Block Grants and Waiver

Legislative/Policy Levers

- **Services** provided
- **Populations** served
- **Location** of service
- **Reimbursement** levels
- **Providers** allowed

What This Conference is NOT!

Market Changes

Regulation/ Legislation

Personal Responsibility

Individual Mandates

Federal Decisions

State Decisions

Local Decisions

Key Questions in Evaluating Policies

- What's the “**Big Problem**” being addressed?
- **Who** is being served?
- What's the (relative) **need**?
- What **options** are available?
- Where's the “**locus**” of decision making?
- What are the **federal considerations**?
- What's the cost of **doing**? The cost of **not doing**?

Three Takeaways

- Leadership **matters**.
- Health policy decisions are increasingly **data-informed** and **data-driven**.
- The time to act is now because Colorado's "**demographic clock**" is ticking.
